

A Letter from Josh Turner

The other day, I announced that we were looking to fill a handful of spots in the new **27X Club** that we unveiled at Ascend.

Since the announcement, I've gotten a TON of questions... most of them revolving around, "Is this something that would be a good fit for me and my specific business?"

It's a fair question, so today I'm going to go into some more detail and give you an idea of who The 27X Club is for... and who it's not for.

The 27X Club is a private club for business owners who are ready to make BIG things happen in their business **NOW**. The 27X Club is based on the principles of our 27X Blueprint, which you can [take a look at here](#). This blueprint is a framework that allows you to 3X your business this year, and then do it again and again.

Think about what 27X growth would look like for you...and what the impact would be on your business and life.

If you're COMMITTED to rapid growth and profit and you're **not willing to wait any longer** to make it happen... then you might be a great fit.

[Complete your 27X Club application here](#)

Who The 27X Club is NOT for...

If you're not interested in growing your business quickly at this point in time, or if you already have all the business you can handle, you're probably not a good fit... at least right now.

If you're not going to do the work...it's not for you. If you're not coachable...it's not for you.

More About Who The 27X Club *IS* for...

If I had to pick one word to explain who the program is for, and what it's all about - I'd pick the word **SPEED**.

The right candidates for The 27X Club are ready to invest in themselves and take action **NOW** to **3X their business in the next year** - come hell or high water. No matter what.

So if you're unwilling to wait any longer to hit (or exceed) your business goals...

More About What the 27X Club is all about...

The 27X Club is a private, hands-on rapid growth group (training + coaching + mastermind), and we need to make sure everyone who joins is ready to commit to being an active participant. That's why we're using this application process to get to know more about each individual applicant and their business.

Once you submit your application, my team and I will review your application. If we agree that you might be a good fit, we'll reach out and schedule a call with you in the near future to go into more detail about the program.

If you're accepted into The 27X Club, YOUR SUCCESS becomes a top priority of my team and mine. You'll work up-close (often 1-on-1) with my team and me on a regular basis. You'll also be a part of many exclusive live training events and coaching sessions, and in-person intensives, throughout the year.

As a 27X Club member, you'll have access to a private 24/7 online community where you can connect with other members, share your wins, and get support whenever you need it. Speaking of support, the program also includes lots of 1-on-1 time...but we can talk more about all those details on the call once you apply.

You'll also have insider access to a huge collection of private resources and exclusive training libraries that aren't available anywhere outside the club.

And that really is just an overview of what you'll get and be a part of, if you're accepted as a member of the 27X Club.

The moral of the story is that we are going to work directly with you to put the systems in place that will enable you to get to the next level.

But we're only taking new applications for a limited time.

In order to give 27X Club members the hands-on attention they deserve, we have to limit the number of people in the program.

Right now, there are a handful of spots left, and when they're gone... they're gone.

[Fill out your application NOW for The 27X Club](#)

*Once you submit your application, you'll immediately be sent to a **private video explaining more information** about the program and to prepare you for our call.*

We're carefully evaluating the applications as they come in, and starting to schedule calls soon.

If you're ready to buckle down, do the work and **3X your business this year**, THIS is the group you want to be a part of.

So if your business isn't currently growing at the rate you want it to, you're tired of working like crazy and not getting good results, AND if you're committed to changing it NOW, I encourage you to apply.

Again, we're only taking applications for a short period of time, so if you're interested, don't put this off.

[Put your application in today](#) - and if it looks like a good fit, we'll get on the phone and get into more detail soon.

Thanks!

Josh

P.S. After you complete the application, you will be taken to a private video explaining more information about the program to help get you prepared for our call. It also features some of our clients and some amazing stories of how they have grown their businesses. You're gonna love it.
