Dear busy Entrepreneur, Marketer, or Sales Professional

I wrote you this letter because I wanted to make sure you knew about a tool that you can use to automate your outbound lead gen on LinkedIn and about the very limited time offer going on right now...

(You did sign up for our recent training about how to automate do this, so I'm guessing there is some interest.)

The tool is called Connect 365, and it is the ONE THING, the vital piece that makes automating your prospecting and follow-up possible. And with LinkedIn, it's 100% compliant. It's the right way to automate LinkedIn if you want to run automated drip marketing campaigns and automate lead gen to your LinkedIn prospects...

Now about the offer.

I know you're busy so I'll be very straightforward. You won't really know what a difference it will make for you, so I want you to try Connect 365 out for free. And to incentivize you, I'm giving you \$5k of some of my best business growth and sales development resources.

Again, nothing for sale right now, just a chance to get an amazing bundle of resources at no cost.

There's just one catch... it ends tonight at midnight PST.

I really can't keep that door open any longer after we've already extended the deadline once.

So, after tonight, you won't see this again. Click here to lock in your test drive, nearly \$5k in bonuses, and more!

I mean, that right there, as a busy entrepreneur, is a no brainer. My personal philosophy is to outsource or automate as much as you can so you can spend your time focusing on what REALLY matters: ***closing clients and servicing them.***

Too many business owners wait too long before they do something that will help them maximize their time and they continue to wear 50 hats for years.

I've learned the hard way, because there's NO way you can do it all.

I know from personal experience just what a difference automation and tools like Connect 365 can make. I used to try to manage everything with spreadsheets and send out individual messages and follow up just went out the door.

I just didn't have time for it.

All of those problems are solved with Connect 365.

It seals up the holes where you lost leads. Not anymore! Take me up on this, it's a great tool but you really need to see it in action for yourself - that's why I'm giving you free access for 14 days.

Here's the link again: [LINK](#)

What exactly do you get? Let me tell you how this works and what exactly I'm giving you.

First,

After your 14 day test drive, here's what'll happen...

If you like it and decide to continue with it after your two-week trial you'll be grandfathered in at a huge discount. That means every single month you continue to use it, you will NOT pay full price.

You'll get a huge discount I only give to my inner circle of clients and business associates.
